The **Sage** eCommerce platform

commercebuild

sage **ISV Champion**

What makes us **unique?**

At **commerce**build we know the challenge of bringing a successful offline business into the digital world. Years of customer relationships, business practices and ERP investments need to be extended online, with all of the associated opportunities and risks.

Critical, in our view, is the commercial value held in the Sage ERP system, something our software integrates with in a more fundamental and meaningful way than is often considered.

We can evidence that a deep-rooted and robust relationship between ERP and eCommerce is absolutely critical to the success of your eCommerce business, and we can prove it.
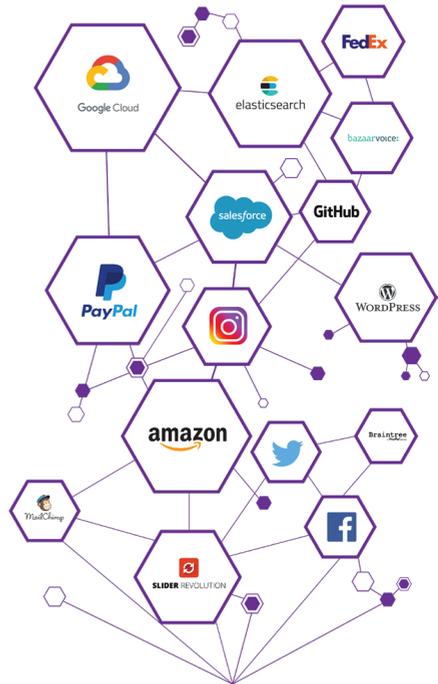

commercebuild

The only Sage certified eCommerce solution

sage

Core functionality

By fusing your clients' Sage ERP system with the **commerce**build platform, we go beyond integration to deliver the only complete end-to-end customer experience.

- **Leverage their Sage ERP investment.**
  Why spend money recreating business logic in a third-party online system when it is already in Sage? **commerce**build reveals that logic so merchants can make investments in the customer experience.

- **Open up the online channel for merchants' existing offline customers.**
  Maximize the digital experience to increase customer satisfaction and drive incremental revenue.

- **Reassure merchants with 100% real-time online experience.**
  Customers see what their service teams see, with zero delay.

- **Give your clients and their customers confidence.**
  100% accuracy of all orders no matter which price list, currency or commercial minutiae are at play.

- **Extend the Sage ERP system to the digital world.**
  Be secure in the knowledge that the **commerce**build platform allows merchants to integrate with third-party digital solutions to enhance their existing business.

Some of our customers

4 **reasons** to recommend **commerce**build to your Sage customers

1   Confidence in Delivery
As the only Sage eCommerce solution, **commerce**build is reassuringly accredited by Sage – with over 200 live Sage customers across almost every sector.
